RENEWED PETITION UNDER 37 C.F.R. § 1.47(b)

Commissioner for Patents
Washington, D.C. 20231

Sir:

Reconsideration of the denial of Applicant's petition under 37 C.F.R. 1.47(b) denying acceptance of the application without the signature of the inventor Alexander Kolbeck is respectfully requested.

The original petition filed 12 July 2002 was dismissed because (1) applicant did not provide evidence from an individual with first-hand knowledge that the inventor Kolbeck had been presented with a complete set of application papers and subsequently refused to execute the declaration; (2) the titles of the individuals executing the declaration on behalf of the owner, Giesecke & Devrient GmbH was not indicated in the declaration previously submitted; and (3) the proprietary interest of Giesecke & Devrient GmbH was not properly demonstrated.

This renewed request is accompanied by declarations of Heidrun Teichmann, Thomas Branzka, Andreas Langer, and Siegfried Harms, all employees of Giesecke & Devrient GmbH attesting to the efforts that were made to obtain the signature of the inventor Kolbeck on a declaration for the present application, including the statement of Mr. Harms that a complete copy of the application and a declaration for signature by Mr. Kolbeck was transmitted to him on November 11, 2002 (Harms declaration,

paragraph 6) and that up to the date of Mr. Harms' declaration (April 1, 2003) Mr. Kolbeck has refused to return the signed declaration. All of the statements of Ms. Teichmann, and Messrs. Branzka, Langer and Harms refer to facts within their personal knowledge and reflect numerous attempts to obtain the cooperation of Mr. Kolbeck as early as December 18, 2001 (Teichmann declaration, paragraph 3).

It is respectfully submitted that the declarations of Teichmann, Branzka, Langer and Harms collectively establish that a complete copy of the present application was transmitted to Mr. Kolbeck and that he has refused to execute the declaration for the application up to April 1, 2003. The undersigned attorney of record is not aware that anything has changed from April 1, 2003 up to the date of filing of this renewed petition.

It is respectfully submitted that the first objection to the original petition has now been removed and that it has been demonstrated that a *bona fide* attempt was made to present a copy of the application papers to Mr. Kolbeck for signature and that he has refused to cooperate.

A new declaration is submitted herewith for this application showing the full names and titles of the signatories executing the declaration on behalf of the owner Giesecke & Devrient GmbH. It is respectfully submitted that the new declaration obviates the objection to the declaration submitted with the original application documents.

With respect to the proprietary interest of Giesecke & Devrient GmbH with regard to this application, the declaration of Mr. Harms indicates that he is fully familiar with the German laws relating to employee/inventor rights in inventions made during the course of employment as well as the rights and obligations of the employer. Mr. Harms declares that he complied with all requirements of German patent law relating to the rights of employees and employers with regard to inventions made during the course of employment, and that pursuant to such laws the company Giesecke & Devrient GmbH, the employer of Mr. Kolbeck when the invention was made, owns full interest in the invention and the patent application. Mr. Kolbeck's employment by Giesecke & Devrient GmbH is confirmed in a written statement of employment officials in the

company appended as Exhibit 8 of Mr. Harms' declaration, and other Exhibits appended to the Harms declaration fully support his statements of the relevant facts. Certain invention disclosure documents attached as exhibits to the Harms declaration have been redacted to preserve certain invention dates in secrecy and to preserve applicant's position with respect to a possible interference that could involve the application in the future.

In support of the declaration of Mr. Harms, there is also appended a declaration of Mr. Jochen Höhfeld, a German and European patent attorney, who is also familiar with the laws of Germany relating to employee rights in inventions. Mr. Höhfeld declares that, in his opinion, Giesecke & Devrient GmbH is legally the owner of all rights to the invention disclosed and claimed in this application and that a German court, if presented with the issue of ownership of the invention, would rule in favor of the company. Mr. Höhfeld specifically quotes controlling provisions of the German law relating to employee inventions made during the course of employment in support of his opinion. He also confirm that he has reviewed all of the documents referred to in the declaration of Mr. Harms, as well as the declaration and exhibits of Ms. Teichmann and Messrs. Branzka and Langer when preparing his opinion.

It is respectfully submitted that the proprietary interest of Giesecke & Devrient GmbH, the signatory of the declaration for this application on behalf of and as agent for Alexander Kolbeck has been demonstrated, thereby obviating the third objection to the original petition.

In view of the foregoing and the documents submitted herewith, it is respectfully submitted that a favorable decision on the petition is warranted and the same is respectfully requested.

Respectfully submitted,
